

<p>ure Post</p> <p>A-INF-248</p>	<p>Waiuku</p>	<p>Facility Expansion for Hard-to-Recycle Plastic This infrastructure expansion project will enable Future Post to accept greater volumes of hard-to-recycle plastics (2-7) to manufacture into new, leach-free posts at our NZ based facilities. The Project will include adding a second processing line to the Waiuku facility and constructing a new South Island facility.</p> <p>Project objectives: 1. Increase hard-to-recycle plastic recycling capacity and employment at the existing Waiuku facility. 2. Create new hard-to-recycle plastic recycling capacity and employment in the South Island 3. Enable the expansion of product stewardship schemes and kerbside recycling of plastics by our customers such as Councils, DHB's, The Soft Plastic Scheme and Fonterra Milk in Schools.</p>	<p>s 9(2)(b)(ii)</p>	<p>YES - EOI is recommended for application</p> <p>✓</p>	<p>Support project concept. Good fit with investment signals and significant job creation. EOI well written.</p> <p>If this EOI was to progress to application stage, the Panel requests further information on supply of feedstock given <u>potential policy changes and phasing out of hard to recycle plastics</u>. Clearly articulate capability for South Island expansion and market and include letters of support.</p> <p><i>agree with point made.</i></p>	<p><input type="checkbox"/> Agree with the Panel recommendation; INVITE the expression of interest to application stage</p> <p>or</p> <p><input checked="" type="checkbox"/> DECLINE the expression of interest</p> <p>Minsters comment (if applicable): <i>What testing has been done of products → microplastic breakdown risk?</i></p>
