MFE CYBER SECURITY WARNING

This email originated from outside our organisation. Please take extra care when clicking on any links or opening any attachments.

Hi Aaron,

In our last meeting, we promised to be more responsive and maintain continuous progress. Here is the following update:

1. As discussed, Mike from ESNZ is reviewing our research plan and will provide an independent review by late April.
2. NZIER will provide a peer review for Insight Economics' economic benefits report. It should be ready in about two weeks. Based on their report, we will prepare and send an updated value proposition for New Zealand, as discussed.
3. We are preparing additional strategic stakeholder documents that will cover the entire story from the beginning to the end. This will address a concern you raised in our meeting regarding possible inconsistencies in the list of documents we shared with the MfE.

Please let me know if anything else is missing or if there is any other information you would like us to provide.

Thank you,
Best regards
Guy
