5	Discussion
6	Next steps
7	Whakakapi, karakia

## Meeting notes

Discussion notes	D1	Karakia
	D2	Mihimihi
	D3	<b>Purpose</b> <ul style="list-style-type: none"><li>An opportunity for Rangitāne o Manawatū and MfE (Ministry for the Environment) to meet and discuss some key policy areas in the Government's 100-Day Plan.</li></ul>
	D4	<b>Overview</b> <ul style="list-style-type: none"><li>Thank you for meeting us at such short notice. The timeframes are very tight and we apologise for that. We have until 12th February to hear back from you with any further thoughts and ideas about what we're discussing today.</li><li>The Government has said Treaty settlements will be upheld. We don't have the detail for that yet as officials still working on it, but we will get this to you as soon as we can.</li><li>Jo Gascoigne and Alice Jacobs to provide an overview on Fast Track consenting proposals (FTC) and the NPS-FM (National Policy Statement for Freshwater Management) respectively.</li><li>Letter will be coming from Minister very soon – Will look to have more engagement after that. Still in the early policy development stages.</li></ul>
	D5a	<b>Fast Track Consenting (FTC)</b> <ul style="list-style-type: none"><li>New regime will draw on previous regimes: the Covid and interim NBA (Natural and Built Environment Act) fast track consenting regime models.</li><li>A key difference between the proposed regime and the Covid regime (which focused on creating jobs and its impact on our economy), is intention that it be permanent, and purpose: will be designed to enable nationally or regionally significant</li></ul>

		<p>development in key areas such as infrastructure, housing, and aquaculture. There will be criteria for determining which projects are eligible.</p> <ul style="list-style-type: none"><li>• There will be some listed projects, where sufficient details are already available relating to those projects to assess them against criteria. Other projects will need to go through a referral process.</li><li>• Initial assessment will be at Ministerial level before referral to an Expert Panel for decision-making. Bill would support a strong presumption that projects referred to the Expert Panel will have their necessary approvals granted.</li><li>• Part of process will be upholding Treaty settlements. Protections will be designed to ensure settlements are upheld through this process.</li><li>• Legislation will focus on RMA (Resource Management Act) consents but may provide for approvals under other legislation as well and could extend to approvals under the Heritage New Zealand Pouhere Taonga Act 2014, Conservation Act 1987, Wildlife Act 1953 and/or Reserves Act 1977.</li><li>• Process - Part of Government's 100-Day Plan, with the introduction of the Bill scheduled for 7 March.</li><li>• If Iwi have initiatives themselves – would also need to meet eligibility criteria.</li><li>• Any feedback provided in the next two weeks would be useful.</li><li>• Debbie to have korero with board in the next week. Will emphasise that policy development is occurring swiftly.</li></ul>
	D5b	Out of scope

		Out of scope
	D6	<b>Next steps</b> <ul style="list-style-type: none"><li>Timeframes around engagement – would like to come back to talk about more detail. Key period is by 12 February.</li><li>Out of scope</li></ul>
	D7	<b>Karakia</b>
<b>Actions</b>	<b>A1</b>	MfE to pass feedback on to wider team.
