Meeting notes

Discussion notes	D1	Karakia/Whanaungatanga
	D2	<ul style="list-style-type: none">•• Government moving fast in relation to Fast track consenting and nps-fm• Do not yet have letter to send out ei• Will be as forceful as possible• Concerns around previous difficulties with consulting with PSGE• In recruitment process to appoint new Chair – First point of contact Pauline and Beth
	D3	<p>Fast Track Consenting</p> <ul style="list-style-type: none">• Proposal includes insuring nothing contrary to Treaty Settlements and they will be upheld in this process.• Moving fast so need to look back at Covid fast track as models. Key differences will be enabling development in infrastructure and housing benefits significant National or Regional benefit.• Ability to get things built to make things easier and faster to get this up and running.• Pre referral process would make sure any Treaty Settlements are upheld through the process. Panel would have very little to decline process, judgement would more sit with Ministerial decisions.• Process – Moving fast, have Ministerial group set to define policy and draft Bill, looking to have Bill introduced by 7 arch.• Wanting to talk to PSGEs to heave concerns and understand position so we can feed this into decision making process with Ministers.• Types of things in ftc – infrastructure and housing projects, rather than individual developers, needs a public benefit to go into this process.• Listed projects that would get initial acceptance, there will be criteria to narrow the entry point frame. And how it aligns with other priorities that the GOVT may have.

		<ul style="list-style-type: none">Timeframes – 7 March for introduction, clarity in terms of detail in the next couple of weeks. Will be parliamentary process and select committee as well.
