

Environment Weekly Update

For the week starting 15 November 2021

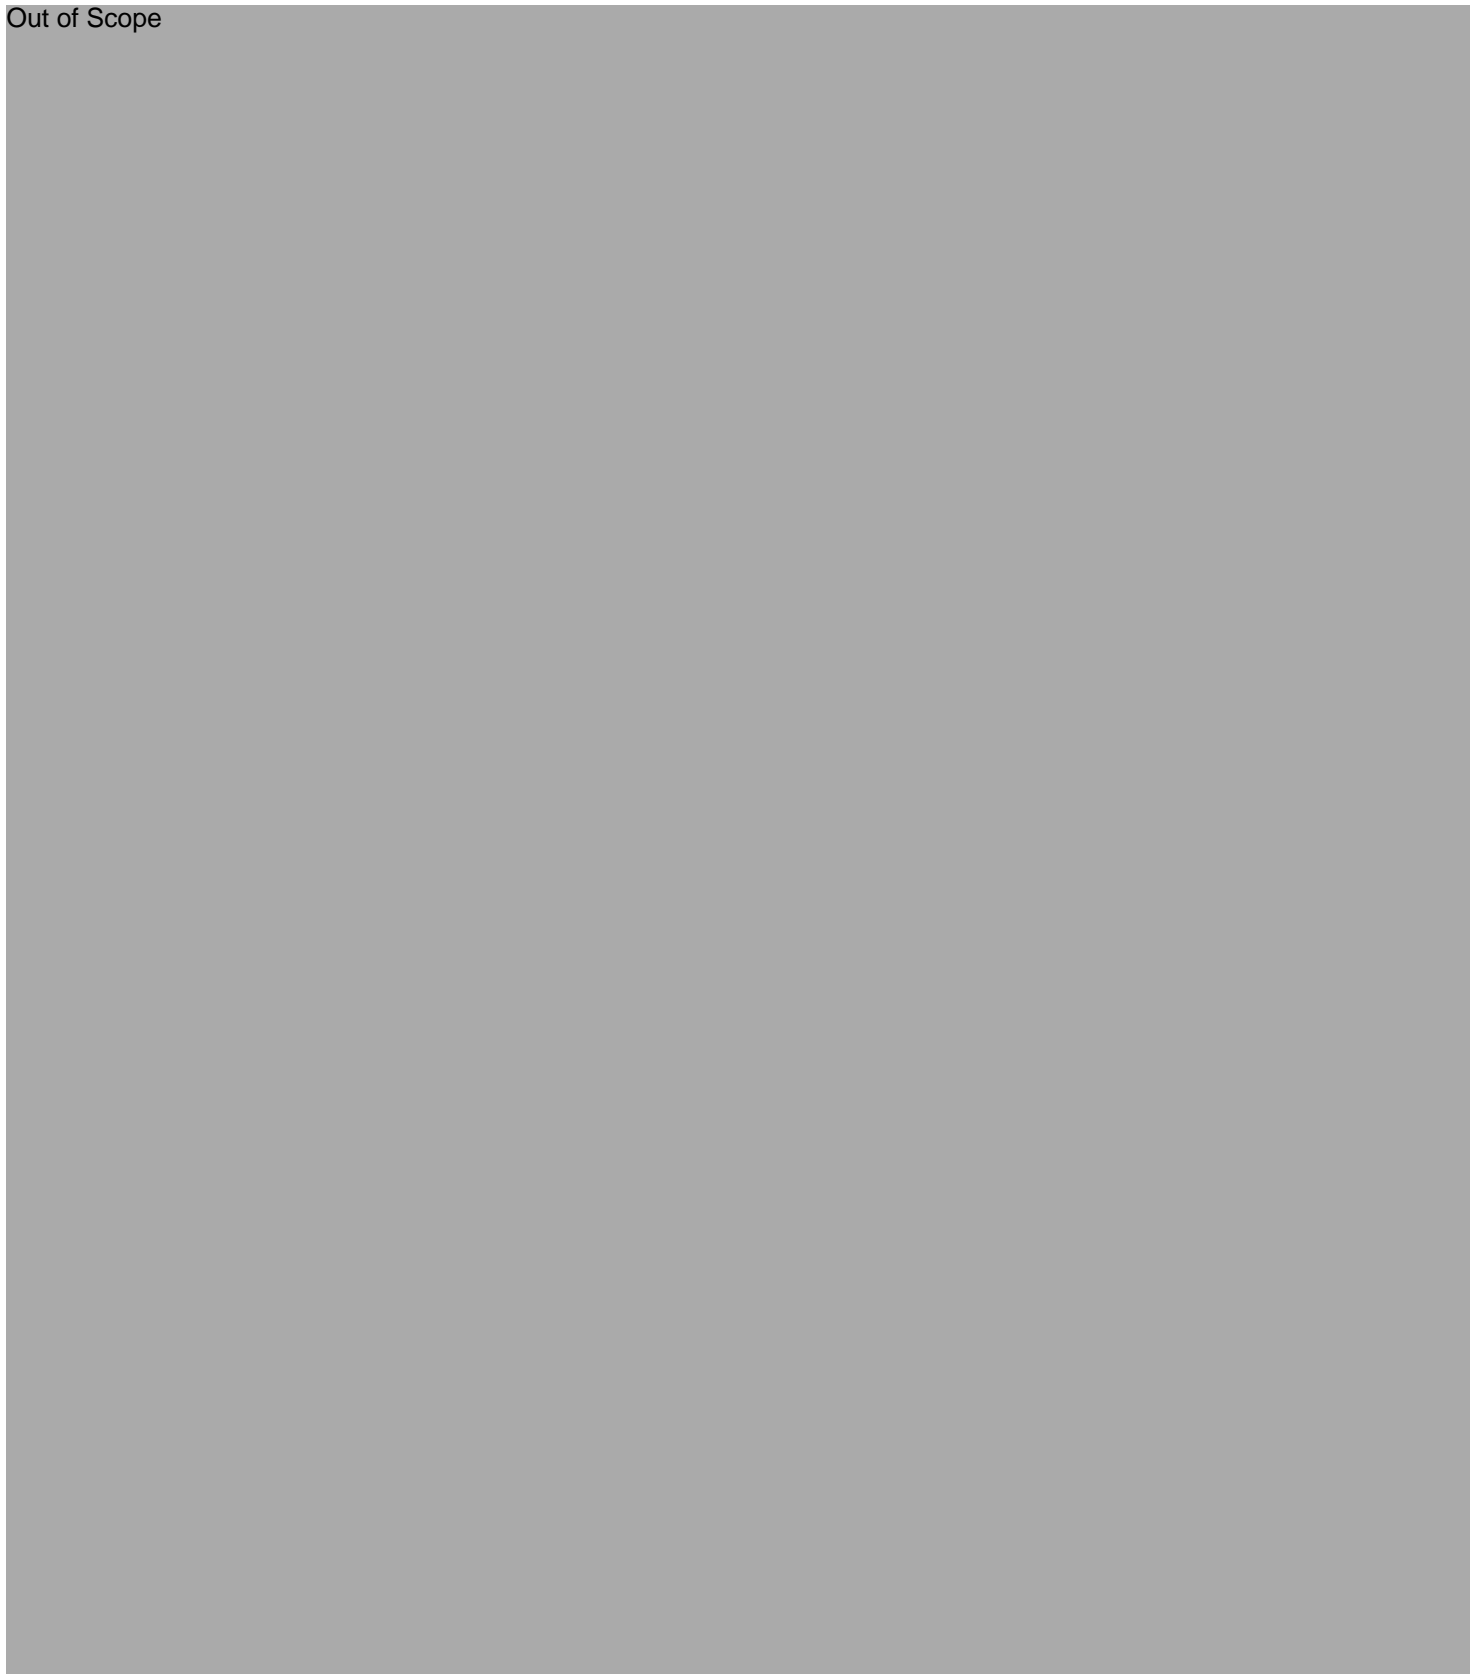

Hon. David Parker, Minister for the Environment

Hon. Kiritapu Allan, Associate Minister for the Environment

Hon. Phil Twyford, Associate Minister for the Environment

Hon. James Shaw, Associate Minister for the Environment

Minister's comments

3. Urban

3.1. Resource Management reform urban work programme

We are currently scoping the urban work programme that will sit within the resource management reform. We aim to provide this work programme to Minister Twyford before the

end of the year. This work programme is to ensure that as we develop the new system, the expected urban outcomes are also met. Urban trees and urban design will be key focus areas for this urban work programme. The briefing for Ministers on tree protections in the new system (BRF 894) will consider the role that trees play in relation to urban design and will link with the urban work program.

Out of Scope
