3. Urban

3.1. The briefing on legislative settings required for urban trees

At MOG 13, the Minister for the Environment was delegated policy decisions on the legislative settings required for urban tree protection, working in consultation with other relevant Ministers. The briefing with recommendations that relate to urban tree protection in the new system is being prepared with input from the Department of Conservation and the Ministry of Housing and Urban Development. To ensure we can consult meaningfully with the other agencies, this briefing has been delayed and will not be complete until early February. We will provide a more detailed update to Minister Twyford in his weekly update meeting on the 14 December.
