Kia ora Maari,

Please see attached the "Final" draft of the Target 9 A3.

We have not received any feedback on the A3 from MCC yet, but if we do, the draft could change quite a bit. Regardless, we need to format the A3 into the PPT format.

Thank you again for the offer to help get our A3 into the PPT template. This is greatly appreciated and will help a lot.

As discussed, hopefully everything will fit, but if edits to wording are needed, please let us know and we can check with agencies, ensuring they are happy with the edits.

We'll let you know as soon as we get any feedback from MCC.

Ngā mihi nui,

Jeremy

PS – I will be off this Friday (I work a 9 day fortnight). Please contact Sylvia (copied) if I am unavailable.

Kia ora Jeremy, thanks for sharing and taking on board many of our comments in the most recent version.

We've got a couple more changes (see attached), no showstoppers. Let us know if MCC has any material changes.

The one question I have is the change (between reports) assessing EB2 as Amber (A), from

Amber-Green (AG). I'm interested in the rationale for the change/down-grading given that the quarterly report states "*current interim projections give confidence that Target 9 can be achieved*". At least at this stage and with current estimates this would indicate it being closer to AG. For transparency John Scott is agnostic on either, as can see it could fit with either.

Thank you,
Maari

Kia ora Maari,

FYI: Please see attached, the draft Target 9 Report for MCC.

You will notice some of the proposed supporting indicators have changed based on feedback from agencies. Would be happy to have a call and discuss if you have any questions or thoughts.

Cheers,

Jeremy
