Subject: Target 9 - two edits

Kia ora Maari,

As discussed by phone, please see attached, Target 9 with two additional edits.

1. The first edit regards that title of the main trajectory graph, on page 1. As noted in previous correspondence, for the main trajectory graph, it can be difficult to understand which data from the ERP2 Discussion Document (and Technical Annex) is included in the graph. As such, we propose adding “(with existing measures but without proposed ERP2 policies)” to the trajectory graph title. To ensure consistency, we have also edited the box plot on page two, including the word “proposed” in the title (see yellow highlight).

2. The second edit regards some duplicative text, identified by the MfE communications team. Specifically, the text “...a price-led, net based, and least cost approach” appears twice. In the attached file, you will see yellow highlights. We propose keeping the first occurrence, but with the word “Strategy” changed to “Government’s overall approach”, and we propose removing second occurrence (i.e. the bullet point highlighted yellow).

Please confirm if it is possible to make these changes.

Lastly, I am eager to confirm the next steps from here. Its my understanding that DPMC is preparing a consolidated report of all nine targets for Cabinet on 5 August (i.e. this is no longer going to STR); and, the consolidated report will be proactively released in August. Is this correct?

Ngā mihi nui,

Jeremy
