Subject: Consultation on commuter survey resources

Kia ora koutou,

You're receiving this email as you are on the invite list for the CNGP "Commuting & working from home" Community of Interest.

A small group of us have focused on methodologies for commuter surveys in recent months. Our aim has been to develop resources for CNGP agencies that can save time and avoid multiple agencies having to re-invent the wheel. We took stock of existing guidance (CNGP, Waka Kotahi, Councils) and methodologies used by agencies who have already measured commuting.

We then converged towards developing the following outputs:

1. A decision tool ([Commuter survey - DRAFT decision tool - August 2024.docx](#)) to help agencies work out the level of detail they wish to go for, and what to consider.
2. A simple survey template – Version A ([Survey template - Version A - DRAFT v2 - May 2024.docx](#))
3. A more complex survey template – Version B ([Survey template - Version B - DRAFT v2 - August 2024.docx](#))
4. A workbook containing calculations and assumptions to make analysis easy – To be developed once the survey templates are firmed up.

Note: these files are saved on the CNGP Teams channel. Let the CNGP team know if you need access.

We would now like feedback from this community of interest on the first three documents:

- Do you think the documents are likely to be useful to CNGP agencies? Have you got suggestions on how to make them more useful?
- Are there changes you would recommend (please add comments or tracked changes in the documents)?
- Please provide feedback by end of August via email or in the documents.

Happy to discuss any of this in the COI meeting on Thursday.

Tēnā koutou

Benjamin Walch

Senior Sustainability Advisor
