Conflict of interest

9(2)(b)(ii)

Jacqui - Māori climate platform listed can be deleted

Recent letter from the Minister about Contaminated Sites and the Vulnerable Landfill Fund and varying criteria for the Waste Minimisation Fund

Gaps between what is available e.g. small amounts of money versus larger amounts. Bigger projects/ larger funding can exclude community or smaller groups/projects.

Recent letter from the Minister about the levy review

None of the legislative changes have been signaled here

\$5 – can add up when dealing with tonnage. Has a top of mind affected for businesses that was not there before

Data is out of date 2022 concerns around time lag/

Next steps - Outstanding Ministerial Advice

Australia/product stewardship, emissions reduction plan and Circularity

Australia – much bigger project. Lots of states and different projects major piece of research work.

Same for packaging/product stewardship – big piece of research work.
