Methane report PR and report is out: <https://www.beehive.govt.nz/release/government-releases-independent-scientific-review-biogenic-methane-science-and-targets>

Isabel Cahis <Isabel.Cahis@mfe.govt.nz> +1f389_partypopper 12/4/2024 3:04 AM

Stuart Malthus <Stuart.Malthus@mfe.govt.nz> 12/4/2024 3:04 AM

This is a heavy finding "In scenarios where global emissions of greenhouse gasses do not reduce rapidly in the next couple of decades, a reduction on 2017 biogenic methane emission levels of around 14-15% by 2050 would satisfy the goal of achieving no additional warming on 2017 levels by 2050."

Cheryl Moir <Cheryl.Moir@mfe.govt.nz> 12/4/2024 3:23 AM

Yeah it's tricky

Cheryl Moir <Cheryl.Moir@mfe.govt.nz> 12/4/2024 3:23 AM

It could have been worse though

Stuart Malthus <Stuart.Malthus@mfe.govt.nz> +laugh 12/4/2024 3:30 AM
