Kia ora kōrua,

We have received the EPA's Q3 Report for FY 2023/24. This comes at the back of Min Simmonds Letter of Expectations for 2024/25 sent to EPA Chair, Colin Dawson on 21 March.

Can you please read through the Q3 report (attached) and determine if it's starting to align with the Minister's expectations in addition to providing a brief summary of the report? (and any other points to note, such as the financial pressure of FTC on EPA).

I am still getting up to speed with EPA's work programme and priorities, through this familiarization process I am unable to determine what is important to flag with the Minister. I would greatly appreciate your input.

Have a lovely weekend and I hope you both get some sun.

Ngā manaakitanga,
Devina Shetty
