Subject: Class 2 cells at Class 1 WM landfills?

Hi Adrienne – was going to send below to Nige (he's been advising me on this), but I see he's on leave? Are you able to assist or re-direct?

Cheers
Dan

Hi Nigel

Sorry, I may have asked you this before, but do know if any of the big class 1 Waste Management landfills also have separate C+D waste cells, registered as class 2? I seem to recall you mentioning this was the case, but don't see any on the registered list below.

One of our locations for composition surveys fell through and am trying to scout out a replacement.

Out of scope

Cheers
Dan

Ministry staff work flexibly by default. For me, this means I work Monday through Thursday.
