Subject: paper for ESEG meeting [UNCLASSIFIED]
Attachments: 240806 - Memo for ESEG.docx Attachment provided separately

Good afternoon everyone - please find attached a paper for our meeting tomorrow.

Apologies it is coming the day before, as you can appreciate it is a very busy time in RMA govt land.

We appreciate you may not have time to digest everything in here prior to our discussion – so we will ensure there is the opportunity to provide follow comments up via email and a further meeting(s) as required. We'll aim to triage discussion in the meeting on the most significant issues – perhaps using the flow chart on pg4 .

We've also provided a few comments in the Annex on the drafting you provided us.

PS can you please forward to any attendees not in the list above (I just sent to those that have accepted the calendar invite) -eg Nicola, Humphrey, Martin etc if they are coming.

PPS I few have a bit of time at the end I'd like to briefly discuss potential future work on energy NESs, plus engagement with DOC re work on the NZCPS

Regards

Daniel Brown
