Mōrena koutou

With my deep apologies please find attached a previously promised memorandum and drafting suggestions for the NPS-REG following our hui in September and October.

I dropped the ball on getting this to you earlier. The material contained in the memorandum and draft NPS-REG is a collation of the matters previously discussed.

It would be helpful to have a further discussion about where this is moving to and upcoming steps. We are starting to think about the programme of work for RM Reform, National Direction and related issues – it seems clear that next year will be busy and mission critical.

Regards
Hamish
