

07 June 2022

OIAD-276

9(2)(a)

Dear 9(2)(a)

Thank you for your email of 9 May 2022 requesting the following information of the Act 1982 (the Act):

We are requesting data files about:

- *Kerbside collection zones and days*
- *Transfer stations and landfill locations*
- *Recycling depots/centre's locations*

On 12 May 2022, and after discussing your request with Jenny Marshall, you revised the request to be the following:

1. *A list of recycled materials collected by councils*
2. *A list of transfer stations with onsite resource recovery/recycling collection*

In response to your first request, the Ministry for the Environment (the Ministry) currently holds a list of materials collected by councils at kerbside recycling across New Zealand. Please note the below caveats to the attached information.

1. This information provided is accurate as of 8 February 2022. It is a snapshot in time and councils can change what they accept.
2. Where kerbside collections are not offered by councils but only by the private sector, the Ministry has provided the most up to date information available. Some regions have multiple private providers. What they collect has been noted.
3. Attached alongside this list of materials collected is also a map from Plastics New Zealand that identifies which councils accept plastics number 5. This was published on 12 May 2022.
4. Please note that the Ministry has not incorporated these updates into the above spreadsheet as in some cases there is still need for confirmation as to whether councils are accepting this plastic at kerbside or just through drop off centres.

5. The council website should be the first point of contact for confirming what is collected. If you have not done so already you may wish to contact the individual councils to confirm this information

The Ministry has identified one document for the second part of your request, which is a list of the transfer stations across New Zealand. Please note the below caveats to the attached information:

1. Only sites that meet the definition of 'transfer station' in the Waste Minimisation (Information Requirements) Regulation 2021 are included in the list.
2. The requirement for transfer stations to register with the Ministry and to start reporting their tonnage data was from 1 January 2022, therefore the list may not yet be complete as there may be sites not yet registered.
3. This list was pulled from the Online Waste Levy System (OWLS) on 18 May 2022, and as such is only up-to-date up until that date.
4. The Ministry only holds information about transfer stations that meet the definition in the Waste Minimisation Act 2008 and which have registered via the Online Waste Levy System (as required by the Waste Minimisation (Information Requirements) Regulations 2021). The Ministry hold information about the site name and address of a registered transfer station but not what services (for example onsite resource recovery/recycling collection) it has available.

You have the right to seek an investigation and review by the Office of the Ombudsman of my decision to withhold information relating to this request, in accordance with section 28(3) of the Act. The relevant details can be found on their website at:

www.ombudsman.parliament.nz.

Please note that due to the public interest in our work the Ministry for the Environment publishes responses to requests for official information on our [OIA responses page](#) shortly after the response has been sent. If you have any queries about this, please feel free to contact our Ministerial Services team: ministerials@mfe.govt.nz.

Yours sincerely

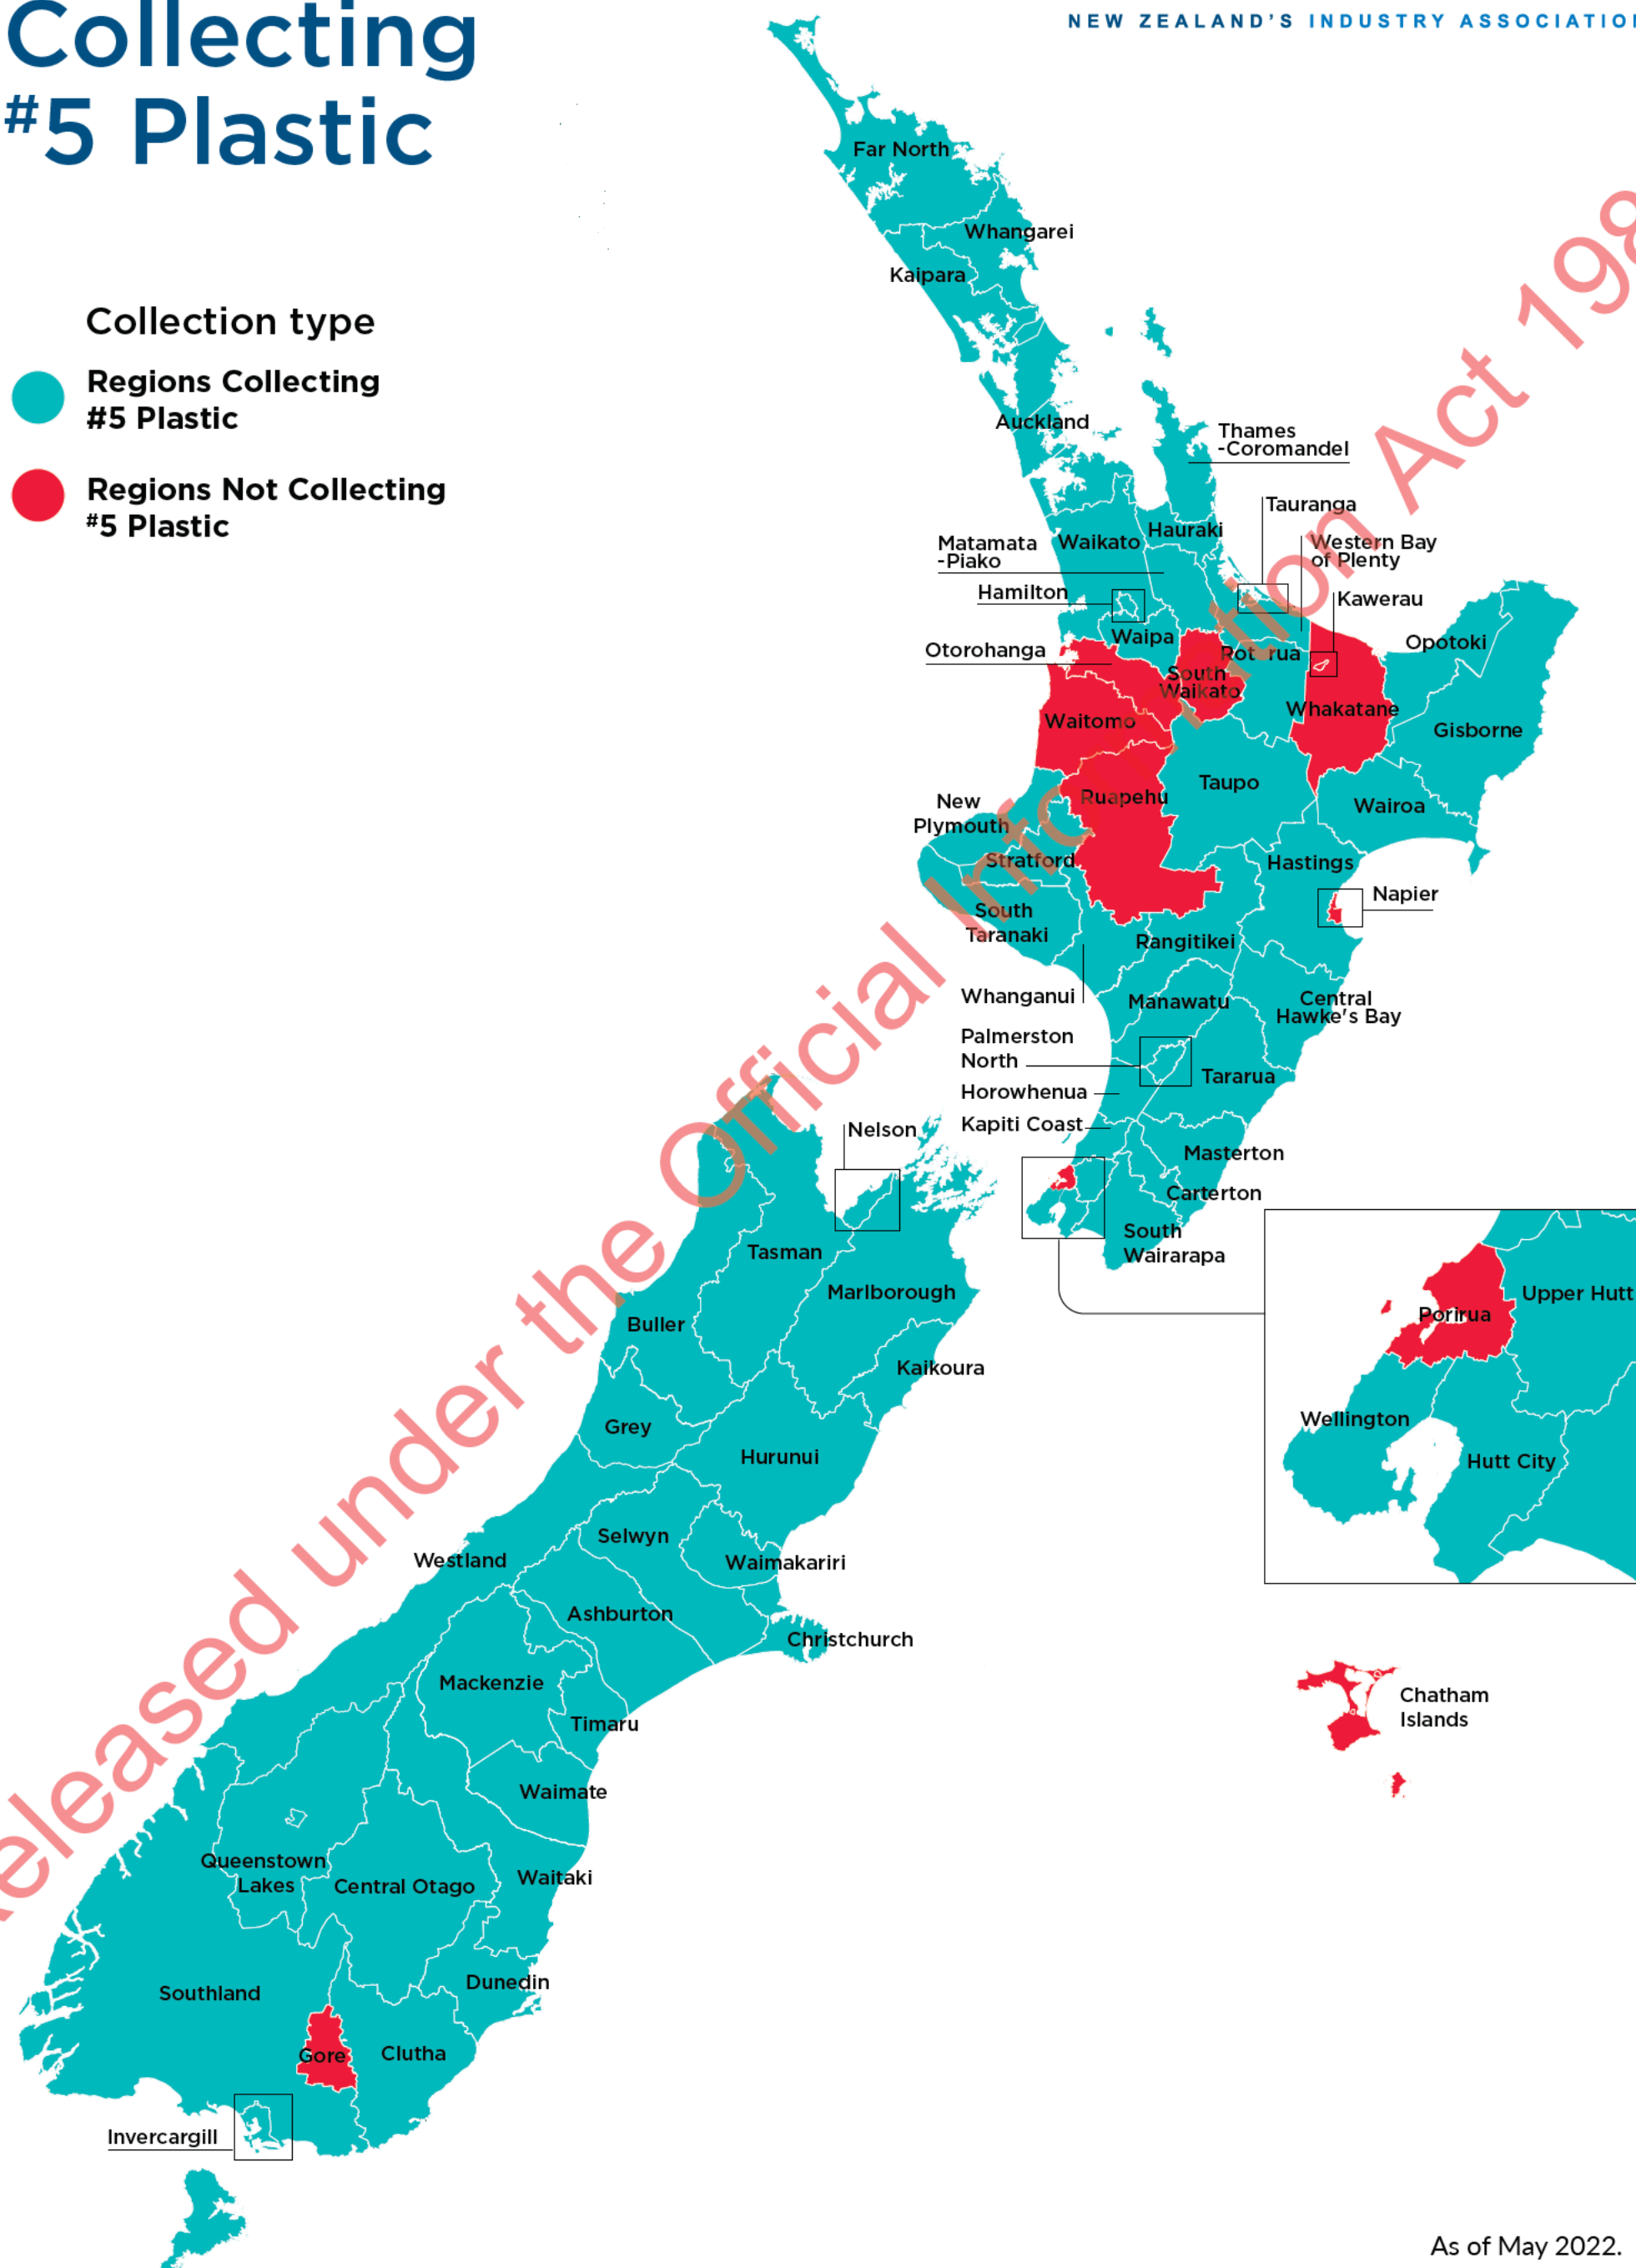

Jonathan Ryan
Acting Director – Waste Policy and Regulatory
