Mōrena Neil

I have a bunch (8x) hydros coming your way, several re-consenting. If you want to sift through them in terms of easy wins (if any), feel free to do so.

This listed project application is for FTA105 Mangahao Hydro-Electric Power Scheme Re-Consenting and Maintenance Projects.

The application is for a re-consenting of the scheme and maintenance. There do not appear to be any previous applications through a standard resource consent process.

The application refers to consultation with DoC, fish passage and effects on fish habitat.

Could you please provide comment on:

- whether the project requires any DoC-related approvals
- if you are aware of anything that would render the project ineligible under clause 18 of the Bill
- if you are aware of any Treaty settlement matters which relate to the project site – such as protocols
- any other relevant matter

The Advisory Group are considering hydro projects on Friday of this week.

Could you please provide your feedback by COB **29 May 2024** at the latest. Any sooner if at all most possible, would be greatly appreciated.

Please feel free to let me know if there is anything I can do to assist.

Ngā mihi
