

## MPI advice on Fast-track Listed Project Application

<b>Application name</b>	Ngā Piringa
<b>Application number</b>	FTA075
<b>Applicant</b>	The Proprietors of Muriwhenua Incorporation.
<b>Whether the application will be ineligible under Clause 18 of the FTA Bill</b>	
<b>Other authorisations that may be required from MPI</b>	
<b>Aquaculture settlement considerations</b>	There are no aquaculture settlement issues with this application.
<b>Fisheries settlement considerations</b>	There are no Fisheries settlements issues with this application.
<b>Impacts of a project on Māori development and PSGE priorities</b>	
<b>Others</b>	<p>Comments from Water Availability and Security team</p> <ul style="list-style-type: none"> <li>- Stormwater, wastewater and sedimentation management during and after the construction of houses</li> <li>- During the operation phase, the water availability and security of new residents needs to be considered. Capturing and storing roof runoff is identified as a complementary source to groundwater. During dry and drought periods, water security could be compromised.</li> </ul>

*Disclaimer: This advice has been developed to support MfE advice to the independent Fast-track Projects Advisory Group and is not intended to provide comment on the merits or viability of the application.*
