

MPI advice on Fast-track Listed Project Application

Application name	North Waikato Roding Infrastructure
Application number	FTA137
Applicant	Waikato District Council
Whether the application will be ineligible under Clause 18 of the FTA Bill	
Other authorisations that may be required from MPI	
Aquaculture settlement considerations	The application is not located within an aquaculture settlement area established under section 12 of the Māori Commercial Aquaculture Claims Settlement Act 2004 or within an area reserved for aquaculture within an individual iwi settlement.
Fisheries settlement considerations	There are no Fisheries Settlement issues associated with this project.
Impacts of a project on Māori development and PSGE priorities	Joint Management Agreement for the co-management of the Waikato River will apply.
Others	<p>Comments from Water Availability and Security team</p> <ul style="list-style-type: none"> - No specific water availability and security risk identified; however this project needs a dynamic storm and waste water management and monitoring plan during and after construction. During construction several waterways may be impacted. These issues are identified in the application. - There is no specific reference to any ecological impacts in the application

Disclaimer: This advice has been developed to support MfE advice to the independent Fast-track Projects Advisory Group and is not intended to provide comment on the merits or viability of the application.
