Hi Max

DOC are not aware of there being any public conservation land with this proposal. Accordingly, we are not aware of particular Treaty issues which may apply. There may be wildlife authorities required, are not aware of any reasons this application would be ineligible for consideration under Fast Track.

Regards

Subject: [IN-CONFIDENCE]Feedback on FTA266 Haldon Station Limited

Importance: High

Mōrena Neil

Had a technical hitch trying to send this one, I hope you only receive one copy.

This listed project application is for FTA266 Haldon Station Limited.

There do not appear to be any previous applications through a standard resource consent process.

The applicant refers to the likely presence of lizards, stating sites with similar characteristics within the district have been found to contain suitable habitat for threatened lizards.

Could you please provide comment on:

- whether the project requires any DoC-related approvals
- if you are aware of anything that would render the project ineligible under clause 18 of the Bill
- if you are aware of any Treaty settlement matters which relate to the project site – such as protocols
- any other relevant matter

The Advisory Group are still considering solar farm projects this coming week.

If possible could you please provide your feedback by COB **21 May 2024** at the latest.

Please feel free to let me know if there is anything I can do to assist.

Ngā mihi

Steph
