Subject: RE: Solar Farm - cable connection

Good morning Laurence,

I have spoken with Council's Property Advisor, Graeme Pointon, who has said that The Utilities Act 2010 will apply to any utilities infrastructure constructed in RDC's road corridors. He also mentioned that our Roads Team would need to be involved as early as possible. Graeme works closely alongside our roading team as Council's Property Advisor so I suggest in the first instance you touch with Graeme.

Kind regards,
Johanna

Subject: FW: Solar Farm

Hi Tiffany,

Further to my telephone message just now, as you may recall we briefly discussed council requirements for establishing a cable connection to the nearby substation from the proposed solar farm during our pre-application meeting. Could you please advise what, if any council approvals would be required for the connection, or if easements etc will be required. The connection will be contained in legal road.

If you have any questions or if you wish to discuss do not hesitate to call or email.

Cheers,

Laurence Beckett

Thank you for sending this through.

Laurence - I should have scrolled back through your email thread with Liz and I would have seen that you were seeking the fast tack option.

Hi Tiffany,

Thank you for taking the time to meet with us today and I look forward to working with you through this process.

The full name of the 'fast track Act' is the Covid 19 Recovery (Fast-track Consenting) Act 2022 and the link to all the documents under for the Tauhei Solar Farm, which was processed under that Act is [here](#).

I have also included a couple of links that might be useful below:

- [Commenting on a fast-track consenting application | EPA](#)
- [Information for local authorities: Overview of fast-track consenting processes | Ministry for the Environment](#)

With thanks,
Christina
