**RE: RANGITOTO/WINDSOR LANDING**

Tēnā koe Chris,

On behalf of the hapū of Ngāti Rēhia please find our support for the above project.

Over the years, development around Kerikeri has reduced opportunities for people to access the moana. We have also been concerned about the poor facility that currently exists at Rangitane, specifically the disrepair of the jetty, the steep and short ramp and the lack of parking for cars and trailers.

Ngāti Rēhia supports investment in maritime infrastructure around Kerikeri that improves easier and safer access for our whānau to the moana in Te Pewhairangi.

The proposed design has had input from Ngāti Rēhia and our kaitiaki have worked alongside the project for the past two (2) years.

Our Kaitiakitanga responsibilities has been affirmed by the project and we have valued the relationships established during this process.

The scope of the cultural elements of the design remains work in progress and we look forward to working together with our community in completing this component.

Ngāti Rēhia supports the opportunity this development will provide all our whānau and community of the Te Kerikeri.

Mauri ora,

William Skipper (Kipa) Munro  
Chairman  
Te Rūnanga o Ngāti Rēhia
