Subject: Cultural Consultation: 8 Stevensons Crescent Development - Fast Track Application
Attachments: 16.02.2023 8 Stevensons Crescent Development - Cultural Consultation.pdf

Tēnā Koe

We act for Junge Xu who wishes to undertake development at 8 Stevensons Crescent, Albany, Auckland ("Site"). This development may take the form of mixed-use development on the Stevensons Crescent frontage with commercial spaces on the ground floor of multi-storey buildings, with residential units above, with the remainder of the residential units comprising townhouses, duplexes and terraces.

Ms. Xu wishes to apply for the necessary resource consents via the "fast track" procedure under the COVID-19 Recovery (Fast-track Consenting) Act 2020 ("FTCA"). Currently Ms. Xu is in the process of applying to the Minister for Environment to refer the Site's development to an expert consenting panel for consideration under the FTCA.

We are contacting you as you have been identified by Auckland Council as mana whenua for the area surrounding the Site - <https://www.aucklandcouncil.govt.nz/building-and-consents/resource-consents/prepare-resource-consent-application/Pages/find-hapu-iwi-contacts-for-your-area.aspx>.

We understand that the location of the Site may be outside your identified area of interest. As such, we would appreciate it if you could please advise us of your interest in the proposal within 15 working days, by **COB Thursday 9th March 2023**. Once we have identified your interest in the development, we can organise a site visit and identify all the documentation you require in the future to provide feedback on the proposal, should Ms. Xu be successful in her application to the Minister of the Environment.

We have **attached** the following letter as a preliminary consultation to inform you of the proposal and seek whether you have an interest in the development for future consultation.

Please feel free to contact us if you require any clarification.

Nāku iti noa, nā | Yours sincerely

MEMORANDUM

To: Refer to Appendix 1

From: Simon Berry – Berry Simons – s 9(2)(a)
Mark Tollemache - Tollemache Consultants – s 9(2)(a)

Date: 16 February 2023

Subject: Cultural Consultation: 8 Stevenson Crescent Development - Fast Track Application

Application Details Relating to an Application under the COVID-19 Recovery (Fast Track Consenting) Act 2020.

1. INTRODUCTION

- 1.1 We act for Junge Xu who wishes to undertake a (predominantly residential) mixed use development of land that she controls at 8 Stevensons Crescent, Albany, Auckland ("Site").¹
- 1.2 Ms. Xu wishes to apply for the necessary resource consents via the fast-tracked procedure under the COVID-19 Recovery (Fast Track Consenting) Act 2019 ("FTCA").
- 1.3 For the purposes of the referral application, the proposal involves the development of up to 150 residential dwellings (final numbers to be determined by concept design), as well as mixed use activities including a dairy and work from home type units fronting Stevensons Crescent.
- 1.4 Land use and subdivision are required to be assessed as a non-complying activity.
- 1.5 At this stage, no resource consents have been applied for, so the following details are on a broad level aimed at securing a referral from the Minister for the Environment ("MfE") to the Environmental Protection Authority ("EPA") for processing where the Convenor of Panels appoints an "expert consenting panel" ("ECP") to determine the application.
- 1.6 It is noted that the Site is not located within any areas of statutory acknowledgement – shown in **Figure 1** below. Additionally, there are no identified items of cultural or historical significance of relevance to the Site.
- 1.7 As manua whenua who may have an interest in the area surrounding the Site, we seek your feedback on this proposal regarding any cultural value aspects relating to the natural and physical environment of interest to you.

¹ legally described as Pt Allot 27 and Pt Allot 299 Pukeatua Psh Blk III Waitemata SD.

Figure 1: Auckland Council GIS Image depicting the Site (outlined highlighted light blue) and the absence of overlapping areas of statutory acknowledgment (highlighted in dark blue and red).

2. GEOGRAPHICAL LOCATION AND SITE DESCRIPTION

- 2.1 The 2.5ha Site is located at the north-western edge of the existing Albany Village, contiguous with the existing urban area.

Figure 2: Auckland Council GIS Image depicting the Aerial Basemap of the Site.

- 2.2 The Site is:
- (a) Opposite land zoned Mixed Housing Urban and Mixed Housing Suburban at 300 and 329 Dairy Flat Highway and Agnew Place;

- (b) Opposite a property that has recently been developed as the Perekia Street development comprising three storey terrace houses and a five storey apartment building; and
 - (c) Located within the Rural-Urban Boundary ("RUB"), but zoned Future Urban Zone ("FUZ") under the Auckland Unitary Plan ("AUP"). **Figure 3** below shows the zoning of the Site in the context of the RUB.
- 2.3 The Site is currently occupied by a single dwelling and is utilised for grazing. It is located above the adjoining flood plain on gently rising land. There is an intermittent stream within the south western corner of the Site which has been degraded by past farming activities.
- 2.4 The current use of the land represents a financially unviable activity of land zoned for future residential development.

Figure 3: Image depicting 8 Stevenson Crescent (in red) and its situation within the RUB (blue dotted line).

3. OVERVIEW OF PROPOSED DEVELOPMENT

- 3.1 The proposal seeks to provide housing designed to respect the values of the Site. This may take the form of mixed-use development on the Stevensons Crescent frontage with commercial spaces on the ground floor of multi-storey buildings, with residential units above. The remainder of the residential units would comprise townhouses, duplexes and terraces.
- 3.2 At this early stage, the applicant envisages that the commercial component of the development will be focused on local community facilities and job generation, including:
- (a) a cafe;
 - (b) a convenience outlet – dairy; and
 - (c) work from home type units fronting Stevensons Crescent.

- 3.3 At this stage, only high-level plans have been prepared. A team of high calibre experts have also been instructed to work on the proposal and provide all the necessary reports to support the application for referral to the EPA.
- 3.4 The list of reports currently being written by experts in relation to the project are on the subjects listed below:
- (a) Masterplan / Structure Plan.
 - (b) Geotechnical.
 - (c) Civil engineers.
 - (d) Ecologist.
 - (e) Traffic.
 - (f) Economics.
 - (g) Planning / Resource Management Act 1991.
4. **NEXT STEPS / CONSULTATION**
- 4.1 We understand that the location of the Site may be outside your identified area of interest. As such, we would appreciate it if you could please advise us of your cultural interest in the proposal within 15 working days, **by COB Thursday 9th March 2023**, indicating whether you would wish to engage in the fast-track process should the application of the Site's development for referral to the EPA be successful.
- 4.2 Should you wish to participate in the fast-track process, we would also appreciate your initial view on the Site's proposed development, indicating any potential documents you may require in the future to aid in your assessment of the Site and if a Site visit would be required as part of your assessment.
- 4.3 We are grateful to you for your time in reading this document and would be happy to provide any further information or clarification needed.
