

Aotearoa New Zealand Single-Use Plastics Ban

From 1 July 2023

the supply of some single-use plastic items will be
banned or restricted including:

Drinking Straws*

Plastic Cutlery

Plates and Bowls
(without lids)

Produce Bags

With the help of this change we will avoid sending
hundreds of millions of plastic items
to landfill every year.

*Plastic straws can still be supplied for health or disability reasons.
The ban also applies to non-home compostable produce labels.
